

1st grade - 2nd grade / 6 yrs. - 7 yrs.

### Elementary Calendar Math Center

Everything you need to provide daily practice with a variety of essential math skills—in one complete center! Our ready-to-use chart features a hands-on calendar you can customize any way you like...plus 4 separate areas that make it easy to add math practice to your daily schedule. Simply choose a different activity each day to provide targeted practice with important math skills—from solving word problems and working out number sentences to exploring number patterns and creating money combinations! Center includes a sturdy, 39" x 44" nylon chart...plus a write & wipe number sentences board, a write & wipe hundreds chart and a total of over 350 cards—including 50 double-sided problem cards, over 150 calendar cards and more. Comes complete with an activity guide.

### Targets standards in these areas:

- Calendar concepts
- Problem solving
- Operations
- Number patterns
- Number sentences
- Place value
- Money combinations
- Algebraic thinking
- Mental math

**JJ664 • \$89.95**

4th grade - 6th grade / 9 yrs. - 11 yrs.

### **Fractions & Decimals Activity Chart**

Fractions and decimals are a breeze to grasp—with self-checking number lines that make challenging concepts easy to visualize! Our hands-on activity chart includes 30 different number line cards, plus 60 double-sided tiles that have a fraction on one side and the matching decimal on the other. Just place a number line into the chart, and students slide in the corresponding tiles in the correct order...then flip the number line over to check the answers on back! The sturdy nylon chart measures 16" x 16".

#### **Targets standards in these areas:**

- Equivalent fractions & decimals
- Comparing & ordering numbers
- Number sense of fractions & decimals

**FF443 • \$29.95**

### **Tabletop Pocket Chart Stand**

This sturdy wooden display stand is double-sided—so you can show 2 charts at once! Measures 16" x 19 1/2"; includes 4 metal rings for hanging. Easy assembly.
